

# Farrowing crate mod. Balance

Maternity cages (farrowing crates)

## Description

**Farrowing crate mod. Balance. Front beam to avoid crushing. Bottom protective bars "fingers".**

Farrowing crate mod. Balance can be considered an evolution of the farrowing crate mod. 018 in which, on the basis of its structure, we add a mobile swing still maintaining th protective bars "fingers" at the bottom.

## Materials

Tube 33,7x2,3.

Tube 28x2.

## Technical characteristics

- Adjustable rear swing that provides an adequate seating area to the sow.
- Protective bars "fingers" at the bottom.
- Ability to modify length and/or width.
- Extra arc by mounting kit installable at any time.
- No cuts or sharp edge.
- Black or galvanized finish.
- Front feeder stainless steel, PVC, Hopper, anchored to wall etc.
- Hinged backdoor for easy opening rod left or right hand.
- Security lock.
- Cheaper version available reducing the thickness of the tube.
- Different grid anchoring options.
- Consult the possibility of particular applications.
